

**"The ultimate test of man's conscience may be his willingness to sacrifice something today for future generations whose words of thanks will not be heard."** Gaylord Nelson, former Governor of Wisconsin and co-founder of Earth Day

At Hilton Adelaide, we are as committed to looking after the environment as we are to looking after our guests. With this in mind, and to ensure your travel doesn't have to cost the earth, we have created our "We Care" initiative.

#### **What You Can Do To Help**

If you want to show you care too, you can choose to not have your room serviced for some or all days of your stay. This will help save 100 litres of water and 1,500 watts of electricity each day – and significantly reduce greenhouse gas emissions. Simply dial '9' the night before and let our Guest Service team know that you want to participate.

#### **What We Will Do In Return**

For every day you ask us not to service your room, we will contribute \$5 to Trees for Life. Not only does this help offset some of the CO<sup>2</sup> emissions associated with your stay, it also improves the local environment with the planting of specific native plants.

For more detail on our commitment to sustainability, current projects, partners and the savings we have made so far, please visit the "We Care" page on our website at [www.NewCityView.com.au](http://www.NewCityView.com.au)

Within the Hilton Family of Hotels, we recognize our environmental responsibility and are committed to improving our performance towards a sustainable future while enhancing the guest and team member experience.

To ensure sustainable business practices in the countries in which we operate around the globe, we will:

- Embrace an **environmental mission and strategy** that encompasses each and every team member
- Focus upon our key environmental commitments: **energy efficiency, CO2 reduction, water efficiency, waste reduction, renewable energy, and sustainable buildings and operations which includes building design & construction, hotel & corporate operations, chemical management, and purchasing**
- **Engage our team members** through training, tools and active involvement
- **Ensure that environmentally friendly initiatives and tactics will impact the guest experience in a positive way**
- **Set targets, measure, benchmark and continually improve** our performance
- Share **best practices** and comply with relevant local, national and international legislation
- Liaise with our **suppliers and business partners** to improve their environmental performance
- Influence **land use** in harmony with nature and **construction** by promoting the use of established environmental best practices
- Support environmental initiatives within the **local community**
- **Communicate** our environmental achievements to our team members and guests
- **Publish** our performance against our established targets
